

Please, please don't take away the ability for me to listen to my K-Love station here in Greensboro North Carolina.

The family-friendly, upbeat Christian music that they play is very refreshing and much needed in this crazy world. If more people listened to K-Love rather than the alternative formats that other stations offer like Rap, Top 20, or Country, then there just might be less conflict and strife among us. K-Love supports wholesome values and has a positive and encouraging impact on my family as well as others who listen across America.

Thank you,
Sarah Andrew
